Meeting Notes

Meeting began at 8:04 AM.

Filomena announced that the FERC Action sent out to our listserv requesting Senators Booker and Menendez vote no.

There were no changes suggested for the previous meeting minutes.

The following summer meeting dates were set: July 13 special session with NJDEP and August 30 at 8 AM. Both meetings are set to take place at city hall. Filomena asked whether the NJDEP could take place at SUEZ Water. Kim, Sue, Ward and Filomena said they would be attending the NJDEP meeting on July 13.

In preparing for the meeting with NJDEP, the committee reviewed the letter written by Kelly and Filomena in response to the inadequacies in the FEIS which highlights the concerns that still remain regarding Lambertville. Sue recommended we involve an independent geologist to assess methods used to construct pipeline. Ward recommended we nail down the permitting process and record it for our committee. Filomena suggested we communicate the concerns from the letter mentioned above. People also suggested they could email Filomena questions for NJDEP to be addressed at the meeting as well.
